No blood test is required.</p> <p>The license generated becomes valid in three days and is then valid up to 90 days. The officiant (the person performing the marriage/civil union, either clergy or justice of the peace) will fill out their portion of the license and return it to the town clerk within three days so that the marriage/civil union can be registered with the state. <b>Seniors</b>	<p>The 55 to 64 age group represented the largest source of visitors from Canada with 37%. In particular, the New Hampshire coast is popular with older visitors.</p> <p><b>Hanover:</b> If your idea of New England involves a sweeping green edged with stately brick buildings, be sure to visit Hanover, a thriving university town in the Connecticut River Valley. First settled in 1765, the town was home to early colonists who were granted a charter by King George III to establish a college. The school was named after the second Earl of Dartmouth, its first trustee. Since its founding, Dartmouth College has had a large hand in shaping the community.</p> <p>This Ivy League school has produced more than its share of celebrated alumni, including Robert Frost, Vice President Nelson Rockefeller, former surgeon general C. Everett Koop, and Dr. Seuss. Another noted son of Dartmouth was the 19th-century politician and orator Daniel Webster. Today, a handsome, oversize village green marks the permeable border between college and town. In summer, the green is an ideal destination for strolling and lounging. The best way to explore Hanover is on foot, so your first endeavor is to park your car, which can be trying during peak seasons (fall foliage and whenever school is in session). Try the municipal lots west of Main Street.</p>

<b>Surprising</b>	<p>The state insect is the ladybug and the state amphibian is the Red-spotted newt!</p> <p>New Hampshire has the shortest ocean coastline of any U.S. coastal state, with a length of just 29 km.</p>

<p><b>History</b></p>	<p>Various <b>Algonquian tribes</b> inhabited the area prior to European settlement. English and French explorers visited New Hampshire in 1600–1605, and English fishermen settled at Odiorne's Point in present-day Rye in 1623. The first permanent settlement was at Hilton's Point (present-day Dover). By 1631, the Upper Plantation comprised modern-day Dover, Durham and Stratham; in 1679, it became the "Royal Province."</p> <p>The New Hampshire State House in Concord was designed by Albe Cady. It is the <b>oldest U.S. state capitol</b> where legislators still meet in their original chambers. It was one of the thirteen colonies that revolted against British rule in the American Revolution. It was the first state to declare its independence, but the only battle fought there was the raid on Fort William and Mary, December 14, 1774 in Portsmouth Harbor, which netted the rebellion sizable quantities of gunpowder, small arms, and cannon over the course of two nights. This raid was preceded by a warning to local patriots the previous day, by Paul Revere on December 13, 1774 that the fort was to be reinforced by troops sailing from Boston. According to unverified accounts, the gunpowder was later used at the Battle of Bunker Hill, transported there by Major Demerit, who was one of several New Hampshire patriots who stored the powder in their homes until it was transported elsewhere for use in revolutionary activities.</p> <p>New Hampshire was a Jacksonian stronghold; the state sent Franklin Pierce to the White House in the election of 1852. Industrialization took the form of numerous textile mills, which in turn attracted large flows of immigrants from Quebec and Ireland. The northern parts of the state produced lumber and the mountains provided tourist attractions. Since 1952, New Hampshire gained national and international attention for its presidential primary held early in every presidential election year.</p>

<p><b>Must Sees</b></p>	<p><b>Fall Colours:</b> The spectacular autumn foliage colour show in New Hampshire attracts visitors from around the world. With the 6,288-ft elevation change within the state, the lush mountain ranges put on one of the longest-running colour displays on the continent in September, while the lower valleys provide colour late into October. Since the date for peak colour changes, depending on where you are in the state, what elevation you are at and varying weather patterns, New Hampshire Division of Travel and Tourism Development has launched its foliage forecast website, <a href="http://foliage.visitnh.gov">http://foliage.visitnh.gov</a> along with some travel tips for an autumn visit. There are numerous fall packages available offering by resorts and country inns – check out <a href="http://www.visitnh.gov">www.visitnh.gov</a>. The most intense fall colours occur in areas in the state where there are vast stands of similar trees that turn colour at the same time. New Hampshire’s scenic roads are a perfect way to see the joyous explosion of reds and yellows that bursts over the landscape.</p> <p>Visitors should also consider leaving your car in the parking lot and taking in views by hiking, boating, kayaking or even a steam train ride. Try to observe scenery at different times during the day to experience the varying, but equally stunning, light effects produced in morning, afternoon and twilight. There's more to fall than an eye-popping palette of colour. Fall is harvest season and the perfect time to enjoy the taste of New Hampshire own fresh fruits and vegetables at a mountainside or seaside picnic.</p> <p>Using a colour coded map of the state and data from previous falls, the foliage forecast shows people what they can expect on any day of the autumn in any part of the Granite State. Through the website, <a href="http://www.visitnh.gov">www.visitnh.gov</a> in September, it goes live with daily updates so that visitors can get up-to-the-minutes reports on New Hampshire’s online foliage report with text alerts to their mobile phone. People can also call toll-free, 800-258-3608 to check on where peak foliage is in full "bloom."</p>

<p><b>OTHER ACTIVITIES</b></p>	
<p><b>Shopping</b></p>	<p>What Canadian could not be motivated by the State's <b>tax free</b> policy and the willingness of New Hampshire merchants to offer bargains? This spring and summer all tourists really need to be told is where to find the best shopping. Three places of note (and there are many, many others noted in the State's Visitor Guide) are:</p> <p><b>North Conway</b> - Over 11 million visitors come each year to the White Mountain Region and North Conway to experience the very best New England has to offer - and shopping is high on the list of things to do! There are over 100 factory outlet stores in town. Settlers Green Outlet Village has 60 nationally known factory stores. Over 55-years young? Antiques dealers and collectors from across the USA and Canada make the Alley a "must shop". <a href="http://www.nhantiquealley.com">www.nhantiquealley.com</a></p> <p><b>The Tanger Outlet</b> in Tilton is not just a mall, it is a tourist destination. And, with the vigour of youth, the burgeoning industry is beginning to turn noses and palates in the direction of the Granite State. There are now twelve commercial wineries and vineyards in New Hampshire and the industry is growing rapidly.</p> <p>To help visitors sample what the state has to offer the New Hampshire Division of Travel &amp; Tourism Development has produced a brochure (also available as a downloadable brochure from its website at <a href="http://www.visitnh.gov">www.visitnh.gov</a> ) to encourage oenophile-bent travelers to discover New Hampshire's wineries, restaurants and creameries. The <b>Wine and Cheese Trails</b> brochure is also available as a downloadable brochure, on-line or in print. The inn's Colonial Revival dining room is reminiscent of a 19th-century resort hotel, with fluted columns, floral carpeting, and regal upholstered chairs. The dinner menu isn't extensive, but that doesn't make it any less appealing. Produce from the college's organic farm is used seasonally. The changing entrees are eclectic and creative and may include braised rabbit leg with truffled pappardelle. Off the lobby is Zins, a more informal wine bistro offering 30 wines by the glass (open daily 11:30am-10pm).</p> <p><b>Jumpin' Jay's Fish Café, Portsmouth:</b> One of Portsmouth's more urbane eateries, Jay's is a welcome destination for those who like their seafood more sophisticated than simply deep-fried. A sleek and spare spot dotted with splashes of color, it also features an open kitchen and a polished steel bar. Jay's attracts a younger, culinary-attuned clientele. The day's fresh catch is posted on blackboards; you pick the fish, and pair it up with sauces, such as salsa verde, ginger-orange, or roasted red pepper. Pasta dishes are also an option - add scallops, mussels, or chicken as you like. The food's great, and the attention to detail by the kitchen and staff is admirable.</p>
